---

## Work Experience

Trapeze Labs - 5/2018 - 3/2021

Backend Software Engineer

- Developed restful web apis using Node.js and Typescript that ran on Aws.
- Setup and maintained build environments across different teams using Aws Codepipeline and Codebuild.
- Continually developed an in-house serverless web api framework using Node.js with Typescript.
- Wrote unit tests, integration tests, and participated in code reviews to ensure code quality.

## Education

BS Computer Science

WGU - 12/2022 - Present (Expected 3/2024)

Associates of Science

Lane Community College - 11/2021 - 11/2022

## Projects

### [Aws Alexa GE Skill](#)

- Used the amazon alexa sdk to create a voice interface for the runescape api.
- Used node.js hosted on a lambda server to handle alexa requests.
- Wrote scripts to parse raw data into SSML that lead to more authentic speech by Alexa.

### [Nba Twitter Network](#)

- Used react to manage ui state.
- Integrated with the twitter api to get player relationships.
- Integrated D3.js with react to create a visualization representing player connections.

## Skills

Typescript, Node.js, Javascript, Html, Css, Sql; Express.js, React; Aws, Postgresql, Git
